# The 52<sup>nd</sup> Annual Report

(Jan 1, 2013 – Dec 31, 2013)

**Ssangyong Motor Company** 

# **Opening Remarks**

#### **Dear Shareholders, Good Morning**

I would like to express my deepest appreciation to all of you for attending the 52<sup>nd</sup> Annual Shareholders Meeting, despite your busy schedule.

Notwithstanding stagnant auto market condition, SYMC maintained upward trend in sales for four consecutive years and recorded the highest ever sales since the foundation of the company thanks to successful launches of face lift models.

Especially in 2013, SYMC recorded the highest growth in domestic auto industry and highest exports in company's history. The global sales of 2013 increase to by 20% compare to that of 2012 to 145,000 units.

Thanks to the upward trend in sales, SYMC was able to reduce operating loss considerably for three consecutive years. Consequently, the financial structure of SYMC improved significantly, which is very meaningful achievement.

We were able to achieve this, thanks to cooperative and positive labor and management relations and continuous support and encouragement from the shareholders.

#### **Respected Shareholders!**

SYMC have been solidifying the foundation for normalization of management as planned despite difficult business environment.

2014 will be a crucial year for SYMC since the company will try to develop new growth opportunity for the future.

For the last 3 years, we promoted Promise 2013, which was mid - long term business strategy and successfully finalized it. Year 2014 will be important because we will start new strategy, Promise 2016.

Promise 2016 plans to establish solid foundation for SYMC to be a global company and targets global sales of 300,000 units and revenue of KRW 6 trillion.

To achieve Promise 2016, SYMC will accomplish global sales target of 160,000 units in 2014 to establish foundation for company turn around and will prepare thoroughly for new model launches scheduled in 2015.

Especially, we will complete the development of X100 in 2014. X100 is a strategic model, a key for the future success of SYMC. We will spare no efforts to launch X100 with perfect quality at a competitive price.

Furthermore, we will explore the opportunity to enter the North American market as a part of our long-term strategy and will intensify our efforts to meet Promise 2016 goals.

In addition, we will continuously strengthen positive labor and management relations, which served as a base for management normalization for the last 4 years.

Last year, we reinstated the workers on unpaid leave and resume day and night two shifts which became a milestone for positive labor and management relations in domestic industries.

We will put utmost efforts to promote productive/cooperative labor and management relations, which will stabilize employment and improve competitiveness of the company at a same time.

We will intensively explore and pursue synergy opportunities with Mahindra not only in R&D but also in purchase and sales & marketing. We will strive to create substantial outcome from synergy projects and to become a Global SUV company.

Honored shareholders!

SYMC is facing waves of change.

2013 was a year to lay a foundation for future success. In 2014, possibility for sustainable

success will be determined by new mid-long term business strategy.

As SYMC has achieved significant success for normalization of management, the company

will once again stay focus on accomplishing business goals with full management capacity.

Furthermore, SYMC will become reliable and respected automotive company through

customer focused management activities and differentiated products.

Please support our efforts to become a global SUV Maker.

Finally, I would like to ask for your continued support and encouragement of SYMC and

wish health and happiness to you and your families.

Thank you very much.

#### 2. Sales Performance

#### 1) Overall outlook

#### 1 Domestic market

The domestic automotive sales volume in 2013 decreased by 2.1% YoY to 1,381,091 due to the aging of PC models, delayed economic recovery, and increased M/S of imported cars.

- **PC**: Market decreased by 10.3% YoY due to the increased demand for RV and imported cars, and the aged models of compact and medium size cars despite aggressive marketing efforts.
- ${f RV}$  : RV market grew by 16.1% YoY with the growing interest in leisure activities such as camping .
  - SUV: Increased by 14.2% YoY with the introduction of new models in the market

#### 2 Overseas market

In 2013, the US and China led the market growth while BRICs market, they had led the global market recovery after financial crisis, was sluggish.

The US market is expected to be slow, but European market will turn around and lead the recovery in the advanced market.

By segment, customers' preference to small SUVs with space and style advantages will encourage major OEMs to expand their small SUV line-ups and local production. The growth of small SUVs is to continue.

Japanese companies are recovering their price competitiveness with weak yen and the competitions for those segments are getting intense. OEMs are competitively launching new fuel-efficient models (fuel efficiency became a major buying factor).

SYMC: Despite unfavorable economic conditions in emerging market such as Russia, Brazil, Algeria, Turkey, and India, SYMC's export increased by 10% year on year to 78,740 CBU units (CKD units excluded), due to the recovery of sales in Europe and China led by launching the new Korando and new Rodius with higher fuel efficiency and lower CO2 emissions compared to the former ones.

#### **Independent Auditors' Report (Consolidated)**

## To the Shareholders and Board of Directors of Ssangyong Motor Company:

We have audited the accompanying consolidated financial statements of Ssangyong Motor Company and subsidiaries (the "Company"). The financial statements consist of the consolidated statement of financial position as of December 31, 2013 and December 31, 2012, respectively, and the related consolidated statement of comprehensive income, consolidated statement of changes in stockholders' equity and consolidated statement of cash flows for the year ended December 31, 2013 and 2012. The Company's management is responsible for the preparation and fair presentation of the consolidated financial statements and our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and December 31, 2012, respectively, and the results of its operations and its cash flows for the year ended December 31, 2013 and December 31, 2012 respectively, in conformity with Korean International Financial Reporting Standards ("K-IFRS").
